Scott,

I just talked to Gregg and he informed he plans to keep the USTs temporarily closed, because he does not have enough money to permanently close them. I mentioned that you would be giving him a call to finish the inspection and provide some compliance assistance. Gregg can be reached at (320) 815-6111. He sounds like he will be easy to work with. He also seems open to compliance assistance. During the visit can you get his contact information and verify the date he became the owner of the property? Also make sure that he is aware of the CP requirement. We discussed this over the phone, but I want to emphasize that if it is not done, he may be forced to remove the USTs.

Thanks.

-Mark

Scott,

I thought I'd let you know that Tony sold the property to Gregg Zimmerman, of Onamia, back in December 2012. I tried to call Gregg and left a message with his wife. It sounds like they do not plan to use the tanks, but I will verify that once I talk to Gregg. I will try and make arrangements for you to go to the site to finish the inspection, without writing another Information Request. I think that this site will require some additional assistance.

-Mark
